Granit Efekt Uygulaması

İlk olarak kalıp yüzeyine bariyer halinde şeffaf jelkot uygulanır. Birinci katın kürlenmesinin ardından, ikinci kat olarak (büyük boy granit yapraklardan 400gr ve şeffaf jelkottan 600gr karışım) yüzeye 6mm'lik nozullu püskürtme tabancası ile uygulanır. Daha sonra polyester dökümü yapılır. 3-4 saat sonra ürün kalıptan alınır. Granit görünümünde mükemmel bir mutfak tezgâhı elde etmiş olursunuz.

Granül Efekt Uygulaması

Temizlenmiş kalıp yüzeyine doğrudan uygulanır. 800gr şeffaf jelkote 200gr granül efekt eklenir ve iyice karıştırılır. 4mm'lik nozullu boya püskürtme tabancası ile ilk kat olarak uygulanır. Sertleşme işleminden sonra ise polyester dökümü yapılır. 3-4 saat sonra ürün kalıptan alınır. Granül efektli mutfak tezgâhınızı elde etmiş olursunuz.

Hakkımızda

İzolasyon, zemin kaplama ve yapıştırıcı dünyasında uluslararası standartlarda yerli üretim yapan tek öncü firma: AŞY POLYMEKS KİMYA İNŞ. SAN. TİC. LTD. ŞTİ. 2003 yılında kurulan AŞY POLYMEKS KİMYA LTD. ŞTİ., sektöründeki tecrübesi ile Türkiye’de izolasyon, yapıştırıcı ve zemin kaplama sektöründe üretim yapan öncü firmalardan biridir.

2004 yılında AR-GE çalışmalarını geliştirerek İstanbul’da kurduğu iki üretim tesisi ile üretime başlamıştır. Türkiye’de ilk izolasyon ve yapıştırıcı, filtre tutkalı, Protolin, elektrik izolasyon malzemeleri üretimine başlamıştır. Bugün Türkiye’de uluslararası standartlarda AR-GE çalışmalarının yürütüleceği laboratuvar sistemlerine sahip, üretim yapan, Orta Doğu’daki en büyük tesislerden birine sahip Türk firmasıdır.

Şirketimiz faaliyetlerine, mermerit mutfak tezgâhı yapımında kullanılan polyester, jelkot, granit efekt, MEK, kobalt ve benzeri ana ürün ve yardımcı ürünlerin ihracatını gerçekleştirerek başladı. Bugüne kadar ihracat yapılan ve aktif olarak ihracat yapmaya devam edilen ülkeler arasında Fas, Libya, Irak, Azerbaycan, Türkmenistan, Kazakistan, Somali ve Etiyopya bulunuyor. Günümüzde Polymex Composite, ihracat faaliyetlerinin yanı sıra Tuzla’da 5.500 m² kapalı alana sahip üretim tesisinde, mermerit mutfak tezgâhlarını ve kalıplarını renklendirmek ve desen vermek üzere kullanılan granit efekt (chips, flake) üretimini gerçekleştiriyor.

Markamızı değerli kılan unsurların başında, “Hızlı, Dürüst, Şeffaf” hizmet anlayışımız ve müşteri memnuniyetine verdiğimiz önem geliyor. Hedefimiz, markamızı değerli kılan bu özellikler ile yüksek kalitedeki ürün ve hizmetlerimizi dünyanın her ülkesine ulaştırarak sektörün öncü şirketi olabilmektir.
